Master Agent, Vanuatu Fast Citizenship

The Vanuatu Coffee Impact Fund, launched in 2024, represents an innovative pathway to Vanuatu citizenship through the Capital Investment Immigration Plan (CIIP). This exclusive investment opportunity, available only through Vanuatu Fast Citizenship as the government's appointed Master Agent, combines citizenship benefits with sustainable investment in Vanuatu's thriving coffee sector.

"Investing through the CIIP in Vanuatu's primary sector, especially the coffee industry, is a visionary step towards our nation's prosperous and sustainable future. The Vanuatu Coffee Impact Fund is a critical part of this vision, and I wholeheartedly support it."

– Robin Kapapa, Chairman of the Citizenship Commission

Why the Coffee Impact Fund?

The Coffee Impact Fund focuses on developing Vanuatu's premium coffee industry, particularly on the island of Tanna, where volcanic soils produce some of the Pacific's highest-quality organic Arabica coffee. With over 300 smallholder farmers already engaged in sustainable coffee production, the sector offers both social impact and strong growth potential.
